

Recommendation letter

To Whom It May Concern,

This letter serves as a recommendation letter for Ruslan Masimov to be a part of your admission program. As his math teacher, I have known him for five years and he is one of my best students. Pursuing his studies, Ruslan has always demonstrated great interest in all classes. Most of his exams in math finish with "5" grades. Ruslan is diligent and responsible during the lessons, and he has demonstrated solid knowledge in the exams. Moreover, he has excellent communication and presentation skills. I can firmly say that he is one of the best students whose mathematical cognition is impressive in our school. Ruslan is a student who focuses on his work and desires the best outcomes. He has always written comprehensive answers to my questions in the exams and prepares very detailed presentations. He is also one of the students I have chosen to represent our school in national math competition.

Ruslan has a characteristic of an honest, intelligent, and enthusiastic person. He didn't miss classes without a proper excuse, and his input to the course is invaluable and useful. He shows his enthusiasm by reading different articles from various mathematics sources and giving questions during the classes. Besides all of these, he is also a benevolent person who likes to help his classmates.

As a personal quality, I can say that he is a hardworking, respectful and intelligent student. His teachers and friends also like him and care about him. Ruslan also possesses strong communication and interpersonal skills. I am positive that Ruslan will be a tremendous asset to your admission program. I firmly believe that you should consider his application and give him an opportunity to continue his education in a foreign university.

Sincerely,

Dilara Shahverdiyeva

Position: Math Teacher and class principal

Organization: Lyceum of Technical and Natural Sciences
